

## ENVIRONMENTAL POLICY STATEMENT

Jacques Technologies is committed to environmental sustainability in our business activities. Jacques acknowledges the importance of protecting the environment in a sustainable manner to help reduce any damage or impact its operations and activities might have.

The Jacques environmental management system aims to satisfy environmental legal requirements and promote sustainable growth that is relevant and appropriate to:

- The purpose and context of the Organisation
- The nature, scale and environmental impacts of our activities, products, and services.

As part of this Environmental Management System, Jacques focus will be to:

- Fulfil our Compliance obligations and relevant Australian Government environmental legislation, regulations, policies, and other leading practice requirements
- Protect the environment, including prevention of pollution, reduction of energy consumption and better management of waste
- Set, meet, and periodically review environmental objectives and targets that support our strategic direction
- Communicate this Environmental Policy and our Environmental Management System to staff, subcontractors, consultants, and relevant clientele

Jacques will develop environmental awareness and provide training to ensure staff throughout the company are aware of their environmental roles and responsibilities. Performance will be monitored on a regular basis via audits and action of any Non-Conformance Reports (NCRs).

Jacques is committed to minimising its footprint on the environment.

Yours sincerely,

Erik Jansson | Managing Director
